Service Category Definition – Health Insurance Premium and Cost Sharing Assistance

(HIV/AIDS Bureau Policy Clarification Notice #16-02, Revised 10/22/2018)

Health Insurance Premium and Cost Sharing Assistance provides financial assistance for eligible clients living with HIV to maintain continuity of health insurance or to receive medical and pharmacy benefits under a health care coverage program. For purposes of this service category, health insurance also includes standalone dental insurance. The service provision consists of the following:

- Paying health insurance premiums to provide comprehensive HIV Outpatient/Ambulatory Health Services, and pharmacy benefits that provide a full range of HIV medications for eligible clients; and/or
- Paying standalone dental insurance premiums to provide comprehensive oral health care services for eligible clients; and/or
- Paying cost sharing on behalf of the client.

To use HRSA RWHAP funds for health insurance premium assistance (not standalone dental insurance assistance), an HRSA RWHAP Part recipient must implement a methodology that incorporates the following requirements:

- Clients obtain health care coverage that at a minimum, includes at least one U.S. Food and Drug Administration (FDA) approved medicine in each drug class of core antiretroviral medicines outlined in the U.S. Department of Health and Human Services' Clinical Guidelines for the Treatment of HIV, as well as appropriate HIV outpatient/ambulatory health services; and
- The cost of paying for the health care coverage (including all other sources of premium and cost sharing assistance) is cost-effective in the aggregate versus paying for the full cost for medications and other appropriate HIV outpatient/ambulatory health services (HRSA RWHAP Part A, HRSA RWHAP Part B, HRSA RWHAP Part C, and HRSA RWHAP Part D).

To use HRSA RWHAP funds for standalone dental insurance premium assistance, an HRSA RWHAP Part recipient must implement a methodology that incorporates the following requirement:

- HRSA RWHAP Part recipients must assess and compare the aggregate cost of paying for the standalone dental insurance option versus paying for the full cost of HIV oral health care services to ensure that purchasing standalone dental insurance is cost effective in the aggregate, and allocate funding to Health Insurance Premium and Cost Sharing Assistance only when determined to be cost effective

Program Guidance

(HIV/AIDS Bureau Policy Clarification Notice #16-02, Revised 10/22/2018)

Traditionally, HRSA RWHAP Parts A and B recipients have supported paying for health insurance premiums and cost sharing assistance. If a HRSA RWHAP Part C or Part D recipient has the resources to provide this service, an equitable enrollment policy must be in place and it must be cost-effective.

HRSA RWHAP Parts A, B, C, and D recipients may consider providing their health insurance premiums and cost sharing resource allocation to their state HRSA RWHAP ADAP, particularly where the ADAP has the infrastructure to verify health care coverage status and process payments for public or private health care coverage premiums and medication cost sharing.
